BSL FR03# Filter Series

General details

Product name	FR03#	Dimensions mm	42-126 x 155 x 44
Product details	Gas Filtration	Weight Kg	0.2 – 0.7
Supply Gases	All common industrial gases	Filtration accuracy	0.01 microns
Manufactured and supported by	BSL Gas Technologies Ltd 101 Laker Road Rochester Airport Ind Est, Rochester, Kent, UK. ME1 3QX	Temperature	-10°C to +50°C
Telephone	+44 (0)1634 661100	Design pressure	15 bar g
Email	solutions@bslgastech.com	Fittings	¼ BSP Female
Website	www.bslgastech.com	Replacement Elements	FR031E, FR032E , FR033E, FR034E.

Main features

Inline accurate gas filtration
Removes particles, moisture and hydrocarbons
Removable bowls for easy filter change
Ready to use straight from the box

Benefits

Simple installation
Low maintenance
Accurate gas filtration to a high standard

Models

Filtration

Removes

FR031F	Particulate, Coalescing, Adsorbing	Particles, moisture and hydrocarbons
FR032F	Coalescing	Moisture
FR033F	Adsorbing	Hydrocarbons
FR034F	Particulate	Particles
